

JOSEPH PAGUIRIGAN

Product Designer · UX/UI · Design Systems · AI-Assisted

(310) 308-7383 | josephpaguirigan@gmail.com | [LinkedIn](#) | [Portfolio](#)

SUMMARY

I design products people actually use. SCE, Bungie, Norton, the Space Force -- I've shipped across industries where the stakes are real and deadlines are tight. Strong opinions, fast execution, and I use AI to move embarrassingly faster than most. No hand-holding required.

EXPERIENCE

- SOUTHERN CALIFORNIA EDISON**
Sr. UX/UI Designer
Nov 2023 – Present

- Led the full visual brand overhaul and redesign of SCE.com -- a systematic rebuild with defined design language, patterns, and components built to scale.
 - Established layout, color, and iconography standards. Cohesive, user-friendly, and consistent across every touchpoint.
- HIRERIGHT**
Lead Product Designer
Oct 2021 – Jul 2023

- Owned the "Reimagined" Screening Manager SaaS app from zero to shipped. Market research, competitor analysis, user needs -- straight into wireframes, prototypes, and production.
 - Drove agile design process with cross-functional teams. Fast decisions, clear rationale, products that hit their targets.
- US SPACE FORCE (DOD)**
Product Designer
May 2020 – Oct 2021

- Designed software for the Space Tasking Cycle alongside operators and strategists. Real tools for real missions -- user research, personas, and usability testing from day one.
 - Built and maintained design systems that kept quality high regardless of who touched them next.
- NORTON LIFELOCK**
Principal UX/UI Designer, Mgr
Nov 2013 – May 2020

- Led UX/UI across Norton Security desktop products. Set creative direction, managed a team of designers, kept the bar high through significant growth.
 - Built design processes that scaled -- systems, patterns, and a team that could execute without me in every room.
- TIVO**
Sr. UX/UI Designer
Jul 2011 – Nov 2013

- Designed entertainment experiences for Target, Best Buy, Toys "R" Us, and more across mobile, web, tablet, Xbox, and TV.
 - Turned complex requirements into clean, branded experiences that felt effortless to use. Simple in the hands. Never simple to build.
